

July 22, 2015
Project 12-1116

**WATERMAIN REPLACEMENT AND IMPROVEMENT
HURONTARIO STREET
FROM EGLINTON AVENUE TO BRISTOL ROAD**

What are we doing?

- Installing approximately 1 km of watermain along Hurontario Street between Eglinton Avenue and Bristol Road as shown on the attached map.

Why?

- To upgrade the water system capacity and reliability to support development in the area.

When?

- We expect to start work on or about mid-August 2015, starting at Eglinton Avenue.
- The project should be completed by mid-December 2015.

Who can you call?

Region of Peel		
Contact Person	Responsibilities	Telephone Number
Heather Jefferson	Project Manager	905-791-7800, ext. 7881
Mark Ferreira	Inspector	905-791-7800, ext. 3246
Paul Kehoe	Inspector (Ainley)	705-737-6025
Four Seasons Site Development Ltd.		
Four Seasons Site Development Ltd. will do the work, under contract to the Region of Peel		
Contact Person	Responsibilities	Telephone Number
Rohit Bansal	Project Manager	416-518-5287
Nick Marrone	Site Superintendent	416-522-6175

Working Hours

- Our contractor's normal working hours are from 7 a.m. to 7 p.m. These hours are consistent with the local municipality's bylaws. We understand this may cause some inconvenience, but a shorter working day would mean the project would take longer to complete.

Traffic and Parking Control

- We may need to reduce traffic to a single lane during construction.
- If we have to reroute traffic, we will place signs giving directions.

Driveway Access

- We will make sure businesses have access at all times.
- Please call the Project Manager if you have special needs related to access or business hours.

Irrigation or Sprinkler Systems

- Please tell the inspector if you have underground irrigation or a sprinkler system outside your property line.
- You may wish to move the sprinkler lines to inside your private property to avoid damage.

Trimming Trees

- If tree branches within the right-of-way interfere with construction, the contractor will have the trees pruned before equipment enters the drip line of the tree.
- If tree branches on private property interfere with construction, they will be pruned back to the nearest suitable trunk, crotch or branch.
- The contractor will ask you for permission before cutting any branches on private property. If you do not allow the contractor onto your property to trim the branches, the branches will be cut vertically at the property line.

Interrupting Your Water Supply

- It is our goal to let you know 48 hours (2 days) in advance if we need to shut off your water. Occasionally, we may have to reduce this notice to 24 hours.
- If we have to shut off your water because of an emergency, we will do everything we can to fix the problem as quickly as possible.

Vibrations

- You may feel slight vibrations from the construction work.

Replacing and Taking Care of Your Sod

- The contractor will take care of any sod we replace for 30 days.
- You can help the sod to stay healthy by watering it for one hour in the early morning, two or three times a week. This is especially important in hot or dry weather.
- We will replace your sod as soon as we can, but there may be a short delay.

Repairing the Road, Curbs, and Sidewalks

- We will start restoring the road and boulevard once all the installations are complete and as weather permits.

Project Updates

- The Region of Peel will always let you know if there are any major changes to the plans.
- We will try to disturb you as little as possible.
- Please call the project manager or inspector if you have any concerns or special needs.

Thank you.

Heather Jefferson
Project Manager

cc: Councillor Carolyn Parrish
